Contents of *Forest Ecology and Management*, Volume 191

VOLUME 191, ISSUES 1–3 **5 APRIL 2004**

Review article

Choice and development of decision support tools for the sustainable management of deer–forest systems
J.-P. Tremblay (Pavillon Alexandre-Vachon, Canada, Quebec, Canada and Aberdeen, UK), A. Hester, J. Mcleod (Aberdeen, UK) and J. Huot (Pavillon Alexandre-Vachon, Canada and Quebec, Canada) 1

Regular articles

Probability of ponderosa pine infestation by mountain pine beetle in the Colorado Front Range
J.F. Negrón and J.B. Popp (Fort Collins, CO, USA) 17

Effect of climatic conditions and tree size on *Austrocedrus chilensis*–shrub interactions in northern Patagonia
F.J. Letourneau, E. Andenmatten and T. Schlichter (Río Negro, Argentina) 29

Factors influencing tree colonization in fragmented forests: an experimental study of introduced seeds and seedlings
N. Hewitt (Chicago, IL, USA) and M. Kellman (Toronto, Canada) 39

Risk and damage of southern pine beetle outbreaks under global climate change
J. Gan (College Station, TX, USA) 61

Prediction of decomposition of litter under eucalypts and pines using the FullCAM model
K.I. Paul and P.J. Polglase (Kingston, Australia) 73

Prescribed burning and productivity in southern pine forests: a review
M.C. Carter (Fort Collins, CO, USA) and C. Darwin Foster (College Station, TX, USA) 93

Dominance of interplanted American chestnut (*Castanea dentata*) in southwestern Wisconsin, USA
D.F. Jacobs and L.R. Severeid (West Lafayette, IN, USA) 111

Biomass accumulation and soil nitrogen availability in an 87-year-old *Populus grandidentata* chronosequence
L.L. White, D.R. Zak and B.V. Barnes (Ann Arbor, MI, USA) 121

Riparian buffers mitigate effects of pine plantation logging on New Zealand streams. 2. Invertebrate communities
J.M. Quinn (Hamilton, New Zealand), I.K.G. Boothroyd (Auckland, New Zealand) and B.J. Smith (Hamilton, New Zealand) . . 129

The influence of silhouette color and orientation on arrival and emergence of *Ips* pine engravers and their predators in loblolly pine
R.A. Goyer, G.J. Lenhard (Baton Rouge, LA, USA) and B.L. Strom (Pineville, LA, USA) 147

Identifying rare species of songbirds in managed forests: application of an ecoregional template to a boreal mixedwood system
S.J. Hannon, S.E. Cotterill and F.K.A. Schmiegelow (Edmonton, Canada) 157

Facilitating natural regeneration in *Saccharum spontaneum* (L.) grasslands within the Panama Canal Watershed: effects of tree species and tree structure on vegetation recruitment patterns
E.R. Jones (New Haven, CT, USA), M.H. Wishnie (New Haven, CT, USA and Panama City, Panama), J. Deago, A. Sautu (Panama City, Panama) and A. Cerezo (Miami, FL, USA) 171

Restoration of seasonal semideciduous forests in Brazil: influence of age and restoration design on forest structure
F.M. de Souza and J.L.F. Batista (Piracicaba, Brazil) 185

Limitations to carbon mineralization in litter and mineral soil of young and old ponderosa pine forests
F.M. Kelliher (Lincoln, New Zealand), D.J. Ross (Palmerston North, New Zealand), B.E. Law (Corvallis, OR, USA), D.D. Baldocchi (Berkeley, CA, USA) and N.J. Rodda (Palmerston North, New Zealand) 201

Managing the tropical landscape: a comparison of the effects of logging and forest conversion to agriculture on ants, birds, and lepidoptera
R.R. Dunn (Perth, Australia) 215

From innovation to adaptation: lessons from 20 years of the SHIFT forest management system in Sanming, China
Y. Song, G. Wang, W.R. Burch Jr. and M.A. Rechlin (New Haven, CT, USA) 225

doi:10.1016/S0378-1127(04)00131-8

Productivity of black spruce and Jack pine stands in Quebec as related to climate, site biological features and soil properties
B. Hamel (Mont-Saint-Hilaire, Canada and Montréal, Canada), N. Bélanger (Montréal, Canada) and D. Paré (Sainte-Foy, Canada) 239
Surface soil changes in base cation concentrations in fertilised hardwood and softwood plantations in Australia
A.D. Mitchell and P.J. Smethurst (Hobart, Australia) 253
A cash flow model to compare coppice and genetically improved seedling options for *Eucalyptus globulus* pulpwood plantations
S.P. Whittock, B.L. Greaves and L.A. Apiolaza (Hobart, Australia) 267
Impacts of selective logging on amphibians in a Bolivian tropical humid forest
N.J. Fredericksen and T.S. Fredericksen (Ferrum, VA, USA). 275
Appropriate measures for conservation of terrestrial carbon stocks—Analysis of trends of forest management in Southeast Asia
N. Kim Phat, W. Knorr (Hamburg, Germany) and S. Kim (Nagano, Japan) 283
Modelling the cost of roe deer browsing damage to forestry
A.I. Ward, P.C.L. White (York, UK), A. Smith and C.H. Critchley (North Yorkshire, UK) 301
Comparing estimates of forest site quality in old second-growth oak forests
B.R. Sturtevant (Rhinelander, WI, USA) and S.W. Seagle (Frostburg, MD, USA) 311
Recovery of soil physical properties from compaction and soil profile disturbance caused by logging of native forest in Victorian Central Highlands, Australia
M.A. Rab (Frankston, Australia) 329
Vulnerability to wind damage in managed landscapes of the coastal Pacific Northwest
J. Wilson (Orono, ME, USA) 341
The influence of environmental, soil carbon, root, and stand characteristics on soil CO_2 efflux in loblolly pine (*Pinus taeda* L.) plantations located on the South Carolina Coastal Plain
C.M. Gough and J.R. Seiler (Blacksburg, VA, USA) 353
Influence of riparian buffer width on air temperature at Whangapoua Forest, Coromandel Peninsula, New Zealand
M.A. Meleason and J.M. Quinn (Hamilton, New Zealand) 365
Stand scale effects of partial harvesting and clearcutting on small mammals and forest structure
A.K. Fuller, D.J. Harrison and H.J. Lachowski (Orono, ME, USA) 373
Coarse woody debris and pine litter manipulation effects on movement and microhabitat use of *Ambystoma talpoideum* in a *Pinus taeda* stand
K.R. Moseley, S.B. Castleberry (Athens, GA, USA) and W. Mark Ford (Parsons, WV, USA) 387
